# SOMNIUM

## Ref. 295.60.75.24

### MOVEMENT

**Caliber**
JM A10 (ETA 2894-2)

**Origin**
Swiss Made

**Jewels**
37

**Frequency**
28,800 A/h

**Power reserve**
42 hours

**Type**
Automatic Chronograph

**Functions**
hours, minutes, small seconds, date, hours totalizer, 30 minutes totalizer, seconds totalizer

High level movement finishing with blued screws and premium polishing

### CASE

**Material**
stainless steel 316L

**Diameter**
43.0 mm

**Height**
11.20 mm

**Bandfix width**
22 mm

**Water-resistant**
10 ATM

**Crystal**
anti-reflective sapphire crystal

**Caseback**
sapphire crystal

**Mystery Effect –** invisible JM emblem on the crystal becomes visible when breathed on

### DETAILS

**Wristband**
very fine calf leather strap, undersurface made of very soft Nappa leather, outstandingly comfortable

**Limitation**
300 pieces

*With the SOMNIUM collection, Jean Marcel was able to create firm and water-resistant, yet stunningly flat mechanical time pieces, not least through using some of the topmost renowned Swiss movements. Calibre JM H05 on the base of ETA Peseux 7001, one of the slimmest mechnical movements ever built, facilitates a total case height of 6.8 mm only, at 10 ATM water resistancy. Also, Calibre JM A10, base ETA 2894-2, makes a case height of 11.2 mm a possibility, creating one of the slimmest automatic chronographs worldwide. The fine satined cases with slim bezels further enhance the slim impression and give way to the wide, prominent dials, combining distinctive design with surpreme legibility.*
