SOMNIUM

Ref. 296.60.56.80

MOVEMENT

Caliber
JM A32 (ETA 2836-2)

Origin
Swiss Made

Jewels
25

Frequency
28,800 A/h

Power reserve
40 hours

Type
Automatic

Functions
hours, minutes, seconds, date, day of week

elevated movement finishing "Élaboré"

CASE

Material
stainless steel 316L

Diameter
43.0 mm

Height
10.80 mm

Bandfix width
22 mm

Water-resistant
10 ATM

Crystal
anti-reflective sapphire crystal

Caseback
sapphire crystal

Mystery Effect – invisible JM emblem on the crystal becomes visible when breathed on

DETAILS

Wristband
all stainless steel Milanese mesh bracelet with JM butterfly folding buckle

Limitation
300 pieces

With the SOMNIUM collection, Jean Marcel was able to create firm and water-resistant, yet stunningly flat mechanical time pieces, not least through using some of the topmost renowned Swiss movements. Calibre JM H05 on the base of ETA Peseux 7001, one of the slimmest mechnical movements ever built, facilitates a total case height of 6.8 mm only, at 10 ATM water resistancy. Also, Calibre JM A10, base ETA 2894-2, makes a case height of 11.2 mm a possibility, creating one of the slimmest automatic chronographs worldwide. The fine satined cases with slim bezels further enhance the slim impression and give way to the wide, prominent dials, combining distinctive design with surpreme legibility.
