22 mm

Water-resistant
20 ATM

Crystal
anti-reflective sapphire crystal

screw-down crown with JM emblem

bezel with ceramics inlay

DETAILS

Wristband
Stainless steel bracelet for ADRENALIN

limited edition 300 pieces

When high performance is not enough - the ADRENALIN models render even more. The unique 200 Hz PowerDrive technology triggers 200 hand jumps per second enabling time displays that were inconceivable in the world of analog wristwatches so far. This caliber made it possible to construct a chronograph able to measure times accurately to one hundredth of a second. But even the usual time display is of legendary accuracy with a deviation of maximum 20 seconds per year. The sporty case of the ADRENALIN with the brushed surfaces and the bevelled, polished edges is ideally complemented by the metal bracelet which is perfectly adapted to the housing design. Alternatively, you can acquire the sturdy rubber strap of which the edge and seam match optimally to each color of the dials.
