

SOMNIUM

Ref. 296.60.66.43

MOVEMENT

Caliber

JM A32 (ETA 2836-2)

Origin

Swiss Made

Jewels

25

Frequency

28,800 A/h

Power reserve

40 hours

Type

Automatic

Functions

hours, minutes, seconds, date, day of week
 elevated movement finishing "Élaboré"

CASE

Material

stainless steel 316L

Diameter

43.0 mm

Height

10.80 mm

Bandfix width

22 mm

Water-resistant

10 ATM

Crystal

anti-reflective sapphire crystal

Caseback

sapphire crystal

Mystery Effect – invisible JM emblem on the crystal becomes visible when breathed on

DETAILS

Wristband

fine calf leather strap with JM butterfly folding buckle

Limitation

300 pieces

With the SOMNIUM collection, Jean Marcel was able to create firm and water-resistant, yet stunningly flat mechanical time pieces, not least through using some of the topmost renowned Swiss movements. Calibre JM H05 on the base of ETA Peseux 7001, one of the slimmest mechanical movements ever built, facilitates a total case height of 6.8 mm only, at 10 ATM water resistancy. Also, Calibre JM A10, base ETA 2894-2, makes a case height of 11.2 mm a possibility, creating one of the slimmest automatic chronographs worldwide. The fine satined cases with slim bezels further enhance the slim impression and give way to the wide, prominent dials, combining distinctive design with supreme legibility.
