DETAILS

**Wristband**  
 all stainless steel Milanese mesh bracelet with JM butterfly folding buckle  
 limited edition 100 pieces  
 One of the slimmest automatic watches - only 8mm height

*With its collection "TANTUM", Jean Marcel presents eight noble mechanical wristwatches in an extremely flat stainless steel case. Named after the Latin word for "only", it features two automatic chronographs with an overall height of only 11 mm, four three-hand automatic watches with date – and an extremely slim 8 mm total height – and, as a special highlight, two hand-wound models that are only 6 mm high. Due to the minimized overall height of the watch design, the timepieces in the new TANTUM collection can therefore be regarded as the flattest models in their respective market segments.*
