anti-reflective sapphire crystal

Caseback

sapphire crystal

Mystery Effect – invisible JM emblem on the crystal becomes visible when breathed on

DETAILS

Wristband

fine calf leather strap with alligator pattern and JM butterfly folding buckle

Finely decorated and skeletonised movement

Classy, mechanical, special, and elegant – the ARTEM collections presents very appealing design, eye-catching at a second glance. The entire case is made up of smoothly rounded geometry, with a double bevel on the bezel which is resembled by the bandfix lugs. Whether you go for a self-winding or a manual caliber, or you choose a chronograph – each ARTEM may pride itself on being one of the very slimmest-in-class, with its slimmness being further enhanced by its sleek contour. As is usual with Jean Marcel, choose from a range of highly sought-after masterpieces of Swiss watchmaking art. These vintage, rare self-winding and hand-wound calibers shine in staggering beauty and most elaborate polishings, logically calling for a number of skeletonized dial designs. The ARTEM collection is completed by an exquisite selection of high-grade straps and bracelets.
