Wristband
 all stainless steel Milanese mesh bracelet with JM butterfly folding buckle

The OCEANUM collection uniquely combines the dynamic character of a rugged diver's instrument with the timeless elegance of a fine mechanical time piece. Looking through the sapphire crystal back, the owner will marvel at the incorporated movements with their high-grade polishings and blued screws, like for example the ETA caliber 2894-2. Only the extremely flat constructive design of this caliber facilitates highest water resistance in spite of the elegant look and feel of the watch. Carefully selected leather straps, waterproof Nytech and rubber straps as well as premium metal bracelets allow the OCEANUM models to be comfortably worn, thus making them an ideal accompaniment in any situation.
