Chronometer providing less than 10 seconds deviation per year

each watch comes with its individual Chronometer certificate, issued by the Swiss testing institute C.O.S.C.

Form and Function – both in one exceptional time piece. Exceptional the cushion-shaped case body together with the sportive-classic round tachymeter bezel, creating an exciting yet unobtrusive look. But the INDIANAPOLIS LAPTIMER is also exceptional in functionality. No other watch movement allows you to take single lap times and total time simultaneously. Finally, it also comes with exceptional accuracy, with a maximum deviation of 10 seconds – not per day, per year! – which is guaranteed by the included Chronometer certificate issued by the prestigious C.O.S.C. institute.
