*PURE ELEGANCE in 18-carat rose gold - The name says it all with the Jean Marcel 35 DIXIEME. With a total height of only 3.5 mm, this watch is one of the thinnest in the world. This flatness was made possible by the exclusive movement of the company "ETA SA Manufacture Horlogère Suisse" with a total height of 0.98 mm. The sun-brushed dials in night blue or tobacco brown are protected by a sapphire crystal and contrast easily with the elegant hands, which are the same colour as the case.*
