With PRETIOSUM, Jean Marcel has launched a new collection of fine mechanical time pieces that may justly already be called 'classics of the future'. Historical design features like the 'coin-rim' bezel and the 'balloon crown' have been combined with slim, streamlined lugs, giving this homage to glorious watchmaking days an excitingly up-to-date touch. Like in most Jean Marcells, the PRETIOSUM cases have been optimized for maximal slimness, reaching possibly record-breaking height dimensions in spite of the included complications such as the power reserve indication with integrated moon phase and small seconds indicator.
