

S P L E N D O R

Ref. 381.60.55.112

MOVEMENT

Caliber
JM A41 (ETA 2836 Elaboré)

Origin
Swiss Made

Jewels
25

Frequency
28,800 A/h

Power reserve
40 hours

Type
Automatic

Functions
hours, minutes, seconds, date, day of week
High level movement finishing with Glucydur
balance, blued screws and premium polishing
gold plated

CASE

Material
stainless steel 316L

Diameter
42.0 mm

Height
11.80 mm

Bandfix width
22 mm

Water-resistant
30 ATM

Crystal
anti-reflective sapphire crystal

Caseback
sapphire crystal
screw-down crown with JM emblem
unidirectional rotating 120-clicks bezel with
PVD plating and luminous dot
Mystery Effect – invisible JM emblem on the
crystal becomes visible when breathed on

DETAILS

Wristband
Leather strap with luminous stitching
limited edition 300 pieces

Sporty-elegant, dynamic, and precise - the cases of the S P L E N D O R collection captivate with their unusual shapes and multiple surfaces. Shiny polished, satined and sandblasted as well as PVD-coated elements create tension and yet complement together harmoniously. Our three-hand models [of the automatic watches] have a unidirectional rotating bezel. Here, Jean Marcel's quality standards are immediately perceptible as the rotating ring is clearly defined and precisely clicks into place in one of 120 positions. The Clou de Paris decorated chronograph based on the ETA Valjoux 7761 caliber has a fixed bezel. With this rare Swiss movement, the date is not displayed in a window -as is usually the case- but by a fourth central hand and can be easily read thanks to the large, highly contrasted numbers on the bezel. The chronograph is operated via the black PVD-coated pushers, which are seamlessly integrated into the case body. The S P L E N D O R SEVEN DAYS models display the date at the 9 o'clock position which enables a particularly large display of the weekday at the 3 o'clock position.
