

S P L E N D O R

Ref. 381.60.62.66

MOVEMENT

**Caliber**  
 JM A41 (ETA 2836 Elaboré)

**Origin**  
 Swiss Made

**Jewels**  
 25

**Frequency**  
 28,800 A/h

**Power reserve**  
 40 hours

**Type**  
 Automatic

**Functions**  
 hours, minutes, seconds, date, day of week  
 High level movement finishing with Glucydur balance, blued screws and premium polishing gold plated

CASE

**Material**  
 stainless steel 316L

**Diameter**  
 42.0 mm

**Height**  
 11.80 mm

**Bandfix width**  
 22 mm

**Water-resistant**  
 30 ATM

**Crystal**  
 anti-reflective sapphire crystal

**Caseback**  
 sapphire crystal  
 screw-down crown with JM emblem  
 unidirectional rotating 120-clicks bezel with PVD plating and luminous dot  
**Mystery Effect** – invisible JM emblem on the crystal becomes visible when breathed on

DETAILS

**Wristband**  
 Rubber strap with blue stitching  
 limited edition 300 pieces

*Sporty-elegant, dynamic, and precise - the cases of the SPLENDOR collection captivate with their unusual shapes and multiple surfaces. Shiny polished, satined and sandblasted as well as PVD-coated elements create tension and yet complement together harmoniously. Our three-hand models [of the automatic watches] have a unidirectional rotating bezel. Here, Jean Marcel's quality standards are immediately perceptible as the rotating ring is clearly defined and precisely clicks into place in one of 120 positions. The Clou de Paris decorated chronograph based on the ETA Valjoux 7761 caliber has a fixed bezel. With this rare Swiss movement, the date is not displayed in a window -as is usually the case- but by a fourth central hand and can be easily read thanks to the large, highly contrasted numbers on the bezel. The chronograph is operated via the black PVD-coated pushers, which are seamlessly integrated into the case body. The SPLENDOR SEVEN DAYS models display the date at the 9 o'clock position which enables a particularly large display of the weekday at the 3 o'clock position.*
