

S P L E N D O R

Ref. 381.60.62.71

MOVEMENT

Caliber
 JM A41 (ETA 2836 Elaboré)

Origin
 Swiss Made

Jewels
 25

Frequency
 28,800 A/h

Power reserve
 40 hours

Type
 Automatic

Functions
 hours, minutes, seconds, date, day of week
 High level movement finishing with Glucydur balance, blued screws and premium polishing gold plated

CASE

Material
 stainless steel 316L

Diameter
 42.0 mm

Height
 11.80 mm

Bandfix width
 22 mm

Water-resistant
 30 ATM

Crystal
 anti-reflective sapphire crystal

Caseback
 sapphire crystal
 screw-down crown with JM emblem
 unidirectional rotating 120-clicks bezel with PVD plating and luminous dot
Mystery Effect – invisible JM emblem on the crystal becomes visible when breathed on

DETAILS

Wristband
 high quality water-repellent Nylon strap with JM butterfly folding buckle
 limited edition 300 pieces

Sporty-elegant, dynamic, and precise - the cases of the SPLENDOR collection captivate with their unusual shapes and multiple surfaces. Shiny polished, satined and sandblasted as well as PVD-coated elements create tension and yet complement together harmoniously. Our three-hand models [of the automatic watches] have a unidirectional rotating bezel. Here, Jean Marcel's quality standards are immediately perceptible as the rotating ring is clearly defined and precisely clicks into place in one of 120 positions. The Clou de Paris decorated chronograph based on the ETA Valjoux 7761 caliber has a fixed bezel. With this rare Swiss movement, the date is not displayed in a window -as is usually the case- but by a fourth central hand and can be easily read thanks to the large, highly contrasted numbers on the bezel. The chronograph is operated via the black PVD-coated pushers, which are seamlessly integrated into the case body. The SPLENDOR SEVEN DAYS models display the date at the 9 o'clock position which enables a particularly large display of the weekday at the 3 o'clock position.
