

S P L E N D O R

Ref. 382.60.95.80

MOVEMENT

Caliber

JM A29 (ETA 2824-2)

Origin

Swiss Made

Jewels

25

Frequency

28,800 A/h

Power reserve

42 hours

Type

Automatic

Functions

hours, minutes, seconds

Skeleton movement with high level finishing with Glucydur balance, blued screws and premium polishing

CASE

Material

stainless steel 316L

Diameter

42.0 mm

Height

11.00 mm

Bandfix width

22 mm

Water-resistant

30 ATM

Crystal

anti-reflective sapphire crystal

Caseback

sapphire crystal

screw-down crown with JM emblem

unidirectional rotating 120-clicks bezel with PVD plating and luminous dot

Mystery Effect – invisible JM emblem on the crystal becomes visible when breathed on

DETAILS

Wristband

all stainless steel Milanese mesh bracelet with JM butterfly folding buckle

limited edition 300 pieces

Transparent smoked glass dial

Sporty-elegant, dynamic, and precise - the cases of the S P L E N D O R collection captivate with their unusual shapes and multiple surfaces. Shiny polished, satined and sandblasted as well as PVD-coated elements create tension and yet complement together harmoniously. Our three-hand models [of the automatic watches] have a unidirectional rotating bezel. Here, Jean Marcel's quality standards are immediately perceptible as the rotating ring is clearly defined and precisely clicks into place in one of 120 positions. The Clou de Paris decorated chronograph based on the ETA Valjoux 7761 caliber has a fixed bezel. With this rare Swiss movement, the date is not displayed in a window -as is usually the case- but by a fourth central hand and can be easily read thanks to the large, highly contrasted numbers on the bezel. The chronograph is operated via the black PVD-coated pushers, which are seamlessly integrated into the case body. The S P L E N D O R SEVEN DAYS models display the date at the 9 o'clock position which enables a particularly large display of the weekday at the 3 o'clock position.
