Bandfix width
20 mm

Water-resistant
5 ATM

Crystal
anti-reflective sapphire crystal

Caseback
sapphire crystal

DETAILS

Wristband
high-quality and fine leather strap made of lambskin with JM folding buckle

One of the slimmest mechanical watches - only 7.5mm height

limited edition 100 pieces

Fascinatingly flat watches are one of Jean Marcel's particular strengths. The new Optimum collection, which celebrates watch minimalism at its finest with its extremely slim cases, also follows in this tradition. With a total height of only 7.5 millimetres for the three-hand automatic watches and just 5.6 millimetres for the Optimum réduit, they are each one of the flattest mechanical wristwatches of modern times. Remarkable for this extremely low height are the two sapphire crystals and the water resistance up to 5 bar.
